CODE OF ETHICS

FUNDAMENTAL PRINCIPLES

Geo-Institute Members uphold and advance the integrity, honor and dignity of their profession by:

- Using their knowledge and skill for the enhancement of human welfare;
- Being honest and impartial and serving with fidelity the public, their employers and clients;
- Striving to increase the competence and prestige of their profession; and
- Supporting the professional and technical societies of their disciplines.

FUNDAMENTAL CANONS

Geo-Institute members shall

- Hold paramount the safety, health and welfare of the public in the performance of their professional duties.
- Perform services only in areas of their competence.
- Issue public statements only in an objective and truthful manner.
- Act in professional matters for each employer or client as faithful agents or trustees, and shall avoid conflicts of interest.
- Build their professional reputation on the merit of their services and shall not compete unfairly with others.
- Act in such a manner as to uphold and enhance the honor, integrity, and dignity of their profession.
- Continue their professional development throughout their careers, and shall provide opportunities for the professional development of those professionals in the geo-industry under their supervision.

I authorize the Institute to verify the information contained in this application and, to that end, to contact any educational institution, professional society, publisher, employer or other entity named or identified in this application or in any document submitted in support of this application. I hereby consent to and authorize the release and disclosure to the Geo-Institute of any information, records or correspondence as required to verify the information in this application, which is held by any such entity identified in this application.
