

Working for You...

The Organizational Member Council (OMC) of the Geo-Institute Reports

August 15-16, 2010. Mooresville, NC

Despite being forced from its meeting room in Mooresville, NC the morning of August 15, 2010 by a fire alarm due to unresolved flooding of the hotel lobby, the six members of the OMC, two Council liaisons, and G-I Director continued their discussions and planning efforts to bring additional value to its Organizational Members..

Kord Wissmann, chair, led the OMC through its two-day session during which the Council, and G-I Board governor, Billy Camp, brainstormed numerous topics to evolve new strategies for offering a business track at G-I's 2012 annual congress, as well as a potential presentation and/or panel discussion at one or more of G-I's allied organizations' events.

An additional agenda item included the organization of the OMC's second annual Organizational Member/Student Reception scheduled for Sunday, March 13 from 7-8:30 a.m. during Geo-Frontiers 2011 in Dallas, TX. Stipends will again be offered for eligible students. Details will be announced at a later date on the G-I website.

Also discussed was the Corporate Volunteer Award for 2010 which the G-I Board of Governors moved under the supervision of the OMC.

Contact OMC members with your ideas, suggestions, etc.
